"Forge thy tongue on an anvil of truth, and what flies up, though it be but a spark, shall have weight."
--Pindar
Edna G. McDade

COMING SOON: April 15. An essayist hails Spring, "When streams overrun their banks, and people -- at income tax time -- overrun their bank balances."

A PALMS-UP TOPIC was that chosen by Texas A&I University students who competed in the annual U of T Debate Tournament last week. "RESOLVED: That the Federal Government should guarantee a minimum annual cash income to all citizens."

Earning it being optional?

EVEN THE CRITTERS THAT SUPPLY OUR DAILY HAMBURGER, and the Sunday roast, carry political power. A Washington correspondent says that weights affect cattle prices and can influence farm votes. Sales at medium weights seem to be preferred while sales at heavy weights "could be discouraging to the party in power."

Texas is included among the livestock-producing states where cattle weights have marked political influence. Note to Texas cows: Watch your weight, girls. To that extra helping of hay, say nay!

C of C Manager Harry Filleman's picture appears in a brochure mailed this month featuring Texas Industrial Week. Hondo, you will remember (or should), was judged first place winner last year in the up-to-10,000 population group. Our display featured 14 local industries. No entry this year. Harry is too busy getting the C of C settled in its temporary (6 months) quarters in the Jack Winkler Building on Hwy 90 to handle HemisFair traffic through Hondo and hope that some of the tourists will stay long enough to get acquainted and hurry back.

NO LESS AN AUTHORITY than the U.S. Dept. of Commerce forecasts \$12.4 billion as the value added by manufacturing industry in Texas for 1968. This is a 12 percent increase over 1967 and a whopping 57 percent over the 1964 total.

Furthermore, Texas chemical industry this year, says USDC, will lead the nation in value added for chemical manufacturing. The nation's chemical shipments are expected to exceed \$43.5 billion (up from \$41 billion in 1967), with much of the increase in value stemming from Texas. . . . Texas! Our Texas!

FOR A CHALLENGE, consider this class motto of the Medina Valley High School seniors: "If at first you DO succeed, try something harder!"

Chuck Beasley

Beasley Seeks Council Post

Charles A. (Chuck) Beasley has announced his candidacy for City Councilman. He is a Major in the Texas Air Guard, as a Fighter Interceptor Pilot at Kelly Air Force Base, Texas. Maj. Beasley is married to the former Judy Nester. They have three children and have lived in Hondo for the past eight years.

Major Beasley has made the following statements: "I believe the present council is doing a fine job, but the people of Hondo need more representation from non-business people."

"My nature does not allow me to be passive in any tasks or assignments in which I share."

"It is the council's responsibility to serve the best interests of Hondo and its residents. If elected, I will do that to the best of my ability."

"Your support will be greatly appreciated. Thank you."

Uvalde Federal Now 1st Federal

W. A. Hensarling, Jr., President of Uvalde Federal, has announced that as of April 1, 1968, the association's new name will be First Federal Savings and Loan Association.

Hensarling stated, "Our new name is the only change in our association. We still have the same warm, friendly service; our same desire to serve you in all your financial needs and our same wonderful quarterly dividends."

First Federal is now paying their 75th consecutive dividend at the current annual rate of 4-1/2%. Hensarling says, "start getting acquainted with our new name, First Federal Savings and Loan Association. It's your old friend, Uvalde Federal, with a proud new name."

First Federal has a branch office at 226 Jefferson Street, Eagle Pass, and the home office is at 118 West North in Uvalde. "First Federal takes pride in serving our entire area," added Mr. Hensarling.

New Bldg. For Medina Ag-Prod

Last week, wet soils and cold weather slowed down field work in Medina County.

County Agent Glenn Bragg supplied the information for this report on agricultural conditions. Bragg said that an estimated 90% of the corn and 80% of the grain sorghums had been planted when the damaging cold hit.

Damage was slight, limited to burning the leaf areas. Most of the corn will survive but in some fields that had been planted earlier the seed rotted in the ground from excess moisture, requiring replanting.

Several farmers who had planted early reported completion of grain sorghum replanting this week. Oscar Nester was one who said the weather setback had made necessary the replanting of two fields of grain sorghum.

Replantings, Bragg said, represent approximately 10% of the total acreage planted in the county. He added that practically all replanting had been completed and that with the present high amount of ground moisture, the crop production potential "looks mighty good unless new weather whims prevail."

George Koch, Tarpley Road, reported his broom corn undamaged and only slight damage to corn and sorghum. Ralph Graff, Devine Hwy on the edge of town, said damage to his young crops was spotted. Charles Halbardier said his corn was "burned some".

Bragg said the heaviest damage was to farms in the Rio Medina area where young leaf tops were nipped but he said that seeds well up were not hurt very much. He said there had been some early winter damage from aphids.

On some grains, the lower leaves turned yellow, probably the result of a virus or the yellow dwarf mosaic. Damage was minor, Bragg said, adding that "potential yields look exceptionally favorable right now."

SMALL GRAINS

Bragg warned that this will be a good year to observe rust conditions, particularly in the wheat variety Rio Penjamo, considered susceptible to rusts. He said that many county farmers were trying this variety for the

TEXAS INDUSTRIAL WEEK APRIL 1-7

Industrial

APRIL 1-7 IS

Texas Industrial Week

Governor John Connally urges every Texan to work toward the establishment of new industry and the expansion of local industry to maintain the state's economic growth.

The Governor signed a proclamation designating April 1-7 as Texas Industrial Week, as established by a resolution of the state Legislature in 1951. In the proclamation, the Governor points out that Texas' manufacturing industries created more than 20,000 new jobs in 1967, resulting in the location of 296 new plants in the state and the expansion of 370 existing firms.

Manufacturing is the most rapidly expanding source of income in Texas, according to figures released by the Texas Manufacturers Association. In the last five years, 1,460 new plants have been established and 1,976 existing facilities have been enlarged. This dramatic growth was the basis for an additional 128,000 new jobs in Texas.

TMA, an association of 3,500 member firms engaged in manufacturing throughout the state, sponsors annual competition between communities with organized planned observances during Texas Industrial Week.

Industry spends an estimated \$35,000 in capital outlay per employee for tools and facilities for employment. "Using this nationwide average of \$35,000 per employee for tools and facilities to provide the 20,000 new jobs created in 1967, the private enterprise system invested \$700,000,000 in our state's industrial growth," the Governor said.

"With this amount invested in Texas' present and future industrial expansion, it is essential that every Texan work for a favorable atmosphere in which new and established industry may invest in the economic well-being of our industrious citizens," the Governor urged.

BE GLAD

Newspapers Are Nosey

Newspapers are noseys. You'd better believe it! And you should be glad there are news media to search out, find the news and responsibly report it and interpret it for you. As a citizen, you don't have the time, ability and sometimes the background and experience to keep abreast of day-by-day developments in your community and the world.

In a sense then, the newspaper is your representative, and as long as freedom prevails you are entitled to know what governmental officials are doing with your tax money, what police departments are doing to enforce the laws, what judgments the courts are passing on yourself and your fellow man, and a multitude of other things that go on all about you.

Just how long do you think honesty would prevail if John Q. Public's representative, the newspaper reporter, were not permitted to see public records? Not long, my friend, we can assure you. The responsible newspaper is as necessary to a democracy as the Bill of Rights is to the Constitution.

Should the day come that this newspaper or any other is not legally permitted to print happenings, or

fairly comment on them, or interpret them for the masses, then you are no longer free and you can expect corruption to be eating away at the very foundations of this country.

No intelligent, knowledgeable journalist will tell you that all reporting is done with the greatest degree of responsibility, but most news media strive toward goals of integrity, accuracy, morality and justice. Don't sell all newspapers down the river just because of the overzealousness of a young metropolitan reporter who "has to get a story."

Yes, newspapers are "nosey," as a metropolitan policeman termed them in a civic club in Harrisonville this week. Nosey in the sense that they care what happens to their communities and the nation, nose in the sense that they bring light to the dark corners of government, nose in the sense that they search out dishonesty and let you know about it, even nose enough to inform your contemporaries that you have appeared in court on a traffic ticket and been found guilty.

If that's nose, then you'd better be glad we are!

—Cass County Democrat, Harrisonville, Mo.

PHILOSOPHER FEARS

Congress May Decide Who Will Be President

Editor's note: The Old Philosopher on his Johnson grass farm comes up with an idea which no doubt has a flaw in it, but that's his worry. Dear editor:

According to all the newspapers I've read in the past few weeks and most of the brainy-type television discussions I've listened to, nearly everybody agrees nearly everything is in a mess nearly everywhere in the world, from the east side of the city limits of Hondo right on clean around the world and back to the west side, and in places it may even get inside the town, although everything seems fairly normal around here to me. Therefore I hesitate to add to the confusion and unrest now besieging the country, but a thought has been nagging at me for some time now and I might as well bring it out into the open.

As I understand the political experts, there is a vague possibility that the Presidential election this year may be thrown into the lap of Congress. In case no candidate gets a clear majority of the electoral votes, they point out, Congress has to select the President, with each of the 50 states having only one vote. The man who gets 26 votes wins and moves into the White House if he can get through the picket lines.

On the surface this seems fair, after all we've got to have a President, somebody's got to be at the top to take the blame, but there's just this one thing. Everybody's forgetting the Supreme Court.

The Supreme Court has already ruled under its one-man-one-vote decision that all Congressmen should represent about the same number of people, but if a state with no more people than say Nevada is going to have the same voice as a state with as many people as California or New York in selecting a President, if the election is thrown into Congress, then you can see what this does to that Constitutional principle.

Obviously, with Nevada with its puny population having as much say-so as New York with its millions, the Supreme Court would have to rule every President Congress selected as unconstitutional.

Congress could select a President on Monday and the Supreme Court would throw him out on Tuesday.

This could go on for years, although not forever because there wouldn't be any President to appoint any new members to the Court when it finally passed on.

And you think we got troubles in Vietnam.

Yours faithfully,
J.A.

COSTS REDUCED

Steady Advertising Creates Quick Demand

There was a time when critics of the competitive system of distribution pointed to advertising as an economic waste. Very few such critics remain today.

It is readily apparent even to the layman that the larger advertisers move goods from the factory to the consumer at less expense. The quick demand created by advertising reduces costs at every stage of distribution. The proof can be found in the accounting of manufacturers and retailers.

A more recent clue to the economic value of advertising can be seen in new attitudes in socialist countries such as

Russia and Poland. The socialist economists belatedly concluded that the worst waste of all was non-consumption. The result has been the birth of competitive promotion among state-owned factories.

While the Russians have decided that it is socially desirable to cause people to want better things, some of our critics still question the social effects of advertising. But an opposite view seems sound:

C. W. Cook, Chairman of General Goods Corporation, has stated that "it is natural for Americans to want to live better than their grandfathers, just as people all over the world would like to do." Mr. Cook believes that the benefits of advertising are social as well as economic: "Advertising not only makes people want, it also helps them get."

"The products and services promoted by advertising are a driving force which motivates us to work and to seek advancement in order to enjoy more and more of them. The attractive goods and services made known to us by advertising help to make us productive servants of our modern society."

Social Security

Hondo Anvil Herald, Friday, March 29, 1968--Page 3

"There are two ways to collect Medical Insurance benefits under Medicare," D. G. Hudson, acting manager of the social security district office in San Antonio, said today.

Hudson added that the recent amendments to the social security law have made it easier to get these benefits.

The first method that can be used is for you to let the doctor collect the Medicare payment directly from Medicare.

The second method is for you to apply for the payment. Under the old law, if the doctor did not want to submit his bill to Medicare, you had to pay him before you could apply for the Medicare payment under the doctor bill insurance part of Medicare. Now, you can apply even if you have not yet paid his bill.

ITEMIZED BILL
Hudson said, "It is important to remember to get an itemized bill, either paid or unpaid, and to send this in with the application for the Medicare payment. If the doctor will fill out the Part II of the application form, this takes the place of the itemized bill."

He added that an itemized bill must contain (1) the name of the patient, (2) name of doctor, (3) your claim number, (4) dates services were provided, (5) charges for the services, (6) place services were provided, and (7) a description of the services provided.

Hudson also said that there is a deadline for medical expenses incurred during July, August, and September, 1966. Those bills, either paid or unpaid, should be submitted for payment before April 1, 1968 IN HONDO MONDAY

For more information, contact your social security representative David Helmer, who will be in Hondo at the District Courtroom Monday, April 1 at 9 a.m.

MATADOR
Most industries seeking new locations are interested in the available labor supply in the area. A group of business men in Motley County are attempting to secure as much information as possible regarding this area's available labor.

The movement is started from information gained from other counties which have secured industries. Also the Texas Employment Commission has offered to set up an office and make a more complete survey, if enough interest is shown.

It is pointed out that an industry anywhere in the county would aid the economic image of the entire county, and it is hoped the businessmen in all communities will enlist their services to the labor supply survey. All persons over 16 years of age are eligible to sign up.

Little benefit will be realized from the snow that fell in Canyon and Randall Counties last week, although the cold blasts of winter will aid the wheat crop here.

Randall County Agent John Brazzil termed the snow as somewhat of a "nuisance" but said the rains would help the wheat and also add to the area's moisture supply that will be necessary in the summer months ahead.

MORE SOCIAL SECURITY FOR MAN IN SERVICE

Of special interest to military men and women and their dependents is a provision in the new social security law which promises greater protection for them and their families.

Under the old law only a person's military base pay was counted toward social security benefits. Starting with January 1968, an additional amount will be counted for each quarter in which the person in military service is receiving active duty pay, provided he is not paying on the maximum social security amount. This extra credit is to cover certain other benefits provided the serviceman, such as food, shelter, etc.

These earnings credits will automatically be credited to your social security account; at the time an application is made. They will not mean additional social security contributions from your paycheck, but will be attributed to the general funds of the Treasury.

The Congress recognized that under the old law, the social security protection of a worker might be impaired during a period when he is in military service, because of the relatively low earnings covered under social security. This new provision seeks to take into account the value of payment in kind -- such fringe benefits as food, housing, and clothing, and medical services, which are in effect part of the serviceman's earnings.

Others going are the John E. Boons, the Doug News, and the following from Devine: the Paul Briedens, James Domaks, Al Moellers, J. Sollock Jr., and the Howard Wallaces.

New GI Bill Expands Benefits

The Veterans Administration today issued a reminder that benefits of the new GI Bill are now limited to Vietnam Era veterans, but apply equally to veterans who served in the armed forces at any time after January 31, 1955.

P. J. Mims, Manager of the VA Regional Office in Houston, said that veterans who had at least 181 days active duty service, any part of which occurred after January 31, 1955, are eligible for these GI Bill benefits:

*Educational Assistance: Full-time payments for college type training range from \$130 a month for a single veteran to \$175 for a veteran with two dependents, with \$10 extra for each additional dependent.

*High School: The same payments are available to a veteran while he completes high school without losing any GI Bill eligibility for advanced educational benefits.

*Apprenticeship or Other On-The-Job Training: Payments (based on six-month periods) begin at \$80 per month in the first period for a single veteran with added payments for veterans with dependents.

*Farm Cooperative Training Includes Institutional Courses: Payments range upwards from \$105 a month.

*Vocational Flight Training: Payments cover 90 percent of the established charge for flight training for veterans who have the equivalent of a valid private pilot license.

*GI Loans: VA guarantees a portion of loans made through commercial lenders. On home loans the VA will guarantee up to \$7,500 of the loan; on farm real estate loans up to \$4,000; and on non-real estate farm loans up to \$2,000. VA will make direct loans for homes in certain cases.

*Medical Care: VA provides hospital care for all veterans who served in the Armed Forces after January 31, 1955, (whether their service is classed as wartime or peacetime) on the same basis as for veterans of earlier wars. Top priority goes to men needing treatment for service-connected or service-aggravated disabilities. If a bed is available, veterans may be admitted for any ail-

Lower Rates On Military Mail

An illustrated pamphlet -- Mail For Servicemen -- outlining the expanded program for airlifting letters, packages and other military mail overseas at low postal rates is now available through the window clerks in the Hondo Post Office, Postmaster John Muennink announced today.

The Postmaster said that as a result of new legislation and action by President Johnson we are now airlifting more than 75 percent of all mail going to the military men and women stationed abroad. We hope this guide will help more American families be familiar with these services and use them."

The eight-page pamphlet illustrates three services for airlifting parcels at rates the average family can afford, the speedy service now available for newspapers and news magazines to most overseas bases, the special rates for books and similar educational materials, and how to mail sound-recorded personnel messages. The

guide also provides parcel wrapping instructions, information on the time it takes parcels to reach Vietnam and other overseas bases from major U.S. cities, and pointers on the correct way to address military mail.

A family sending a ten-pound package from Hondo to Vietnam, for example, pays only \$2.75 on a package marked "PAL", while the regular air parcel rate for the same package is \$6.59, said the postmaster.

On parcels weighing less than 5 pounds it might be more advantageous for a family to use the older (SAM) Space-Available Mail service, which provides surface transportation to the port of embarkation and airlift overseas. A four-pound SAM package to a European military post from Hondo costs only \$1.10. On packages weighing under two pounds air parcel post is often the patron's "best buy" for through airlift service, the pamphlet suggests.

Other small grains than wheat might also have rust problems as warmer weather comes, Bragg said.

FRUIT TREES-VEGETABLES

Except for those in the extreme north section of Medina County, fruit trees have survived the cold weather without any severe damage. In the local area, trees are still heavily in bloom.

Greatest threat is to the peach crop, Bragg said. The peach twig borer is presently hard at work, tunneling into fresh tender shoots and causing them to die back.

Area Entomologist James A. Deer, Texas A&M Extension Service, says the borer is not a common pest in South Texas and that growers may not be

familiar with the damage it can cause.

The insect overwinters as a small brown worm in a silken cocoon closely attached to the back of trunk and branches. The young larvae emerge and begin their tunneling when the trees begin to leaf. As many as four generations of the borer may occur per year.

Bragg says this problem can be controlled by spraying with Sevin or Diazinon at 10-day intervals.

Vegetable harvest in the county is presently limited mostly to carrots and potatoes and a few hardy early greens. Bragg said the sugar beets recently harvested on two plots were not shipped to Hereford as planned because the mill had closed down due to excessive rains in the area. No mill an-

Analysis of the Medina County harvest was made but Bragg said growers were satisfied with the quality and quantity and are assured that sugar beets are an income crop in this section of the 13-county area included in the program.

Representatives from several mills viewed the harvesting and "went away well pleased with what they saw," Bragg said.

Brownsville Votes 'No' On Sales Tax

Brownsville voters turned down the city's proposed 1% sales tax by a vote of 2,436 to 1,519, following a week of intensive campaigning by tax opponents.

City Clerk Jesse Sloss said the vote had begun light but gathered interest and the turnout was considered exceptionally heavy. Downtown business men led the opponents.

With the proposed tax revenue estimated at \$400,000, city officials had proposed applying this to a retirement fund for employees, to pay off airport bonds, reduce ad valorem taxes and to increase the services of the city police department.

Opponents contended the city's present revenue was sufficient for all these projects.

Brownsville is one of the few communities in the Rio Grande Valley to reject the tax. Thirteen other Valley cities have approved it.

TEDDY MENDOZA, Scout Troop 192, makes like a strong-arm as he heads for the campout held the weekend of Mar. 23 at the Travis Johnson ranch. Ted's dufflebag was full but he found one or two essentials missing when he opened it and suspected this might have been the work of his little brother Michael who insisted on helping him pack.

TO THE VOTERS OF MEDINA COUNTY

We, the Commissioners Court of Medina County have been petitioned for and are calling for an election on April 13th for the issuing of \$1,400,000.00 dollars in bonds of which 75 percent will be used for right of way on a divided Hi-Way through Medina County and various farm to market roads. Said Hi-Way to follow the present Hi-Way 90 with the exception of the cities of Hondo, Castroville, D'Hamis & Dunlay.

The balance of 25 percent to be used for re-topping approximately 50 miles of pavement, construction of new roads. Also for right of way for future Farm to Market roads in Precinct four in areas of Devine, Natalia & Biry area.

We realize the opinion of people in regard to higher taxes. Also the fact that it might be better if the Federal Government or the State paid for all of the Right of Way construction and Maintenance but under the present and future regulations as far as we know only the State would help with said right of way. Their help would amount to about one-half of the cost.

It is known that the increase of traffic on High Way 90 has made it a hazard and that it will become increasingly more so with just normal increase of traffic; plus the completion of Amistad Dam, HemisFair, Etc. By not making a major improvement on Hi-Way 90 we are jeopardizing the lives of six to seven thousand daily. One of these lives could be yours — your parents, child, grandchild or your best friend.

The overall road program will take up to 10 years to complete and will ultimately result in a 30c increase in the tax rate based on present assessed valuations. To begin the program, it is contemplated that a maximum increase of 10c will be necessary next year.

THE TOTAL PROGRAM WILL COST THE HOME-OWNER

Your Actual Property Value, \$1,000.00; County Tax Per Year, \$0.57; Increase Per Month, \$0.05; 5,000.00; \$2.85; 24; 10,000.00; \$5.70; 48; 15,000.00; 8.55; 72; 20,000.00; 11.40; 96.

These figures represent a thirty cent tax rate.

So we ask you to give this matter its due consideration, and when the time comes Vote and vote the way you feel is to your best interest and the future of entire Medina County.

By Commissioners Court Medina County, Texas (2tc13)

Schuehles Attend Ford Meeting

Mr. and Mrs. Jake Schuehle attended the FADA meeting, held at the Galveston Hotel the past weekend. Enroute they were overnight guests of Mrs. Schuehle's parents, the R. B. McLaughlins in Houston. The McLaughlins entertained them with a dinner party which included nieces and their families from Arizona, Austin, Alice and San Antonio. Also present were Judy, John and Hunter Schuehle.

First Complete Production Verdi's 'Don Carlo' April 6

A sumptuous staging of the complete five-act version of Verdi's "Don Carlo" will inaugurate San Antonio's new Theater For the Performing Arts on the opening night of HemisFair '68 on April 6.

The performance -- before an audience including Mrs. Lyndon Johnson, Secretary of the Interior Stewart Udall, and dignitaries of participating nations -- will be the first complete production of the opera in the United States.

Singing with the San Antonio Symphony under the baton of Dr. Victor Alessandro will be a brilliant cast brought together from Europe and America.

The production will be under direction of Tito Capobianco who won acclaim for his recent staging of "Tales of Hoffmann" in the San Antonio Grand Opera Festival.

Lavish sets have been designed especially for the HemisFair production by Donald Oenslager of the Yale University Drama School, who is considered the dean of American stage designers.

As an opera for which Verdi conceived five of his greatest roles, "Don Carlo" requires a quintet of superlative voices which, in the words of Director Capobianco, "must be in tune, must match". He believes the cast for a memorable production has been assembled.

For what has been called Verdi's greatest bass role, that of King Philip II, the production will offer Donald Gramm the Metropolitan Opera bass-baritone with a rich, dark voice.

Delighting in the challenge of Verdi's finest mezzo-soprano role, that of Princess Eboli, is Marilyn Horne, whose phenomenal voice has already brought her rank as one of London Records all-time stars.

Joining them will be Cornell MacNeil, leading baritone of the Metropolitan Opera, and Raina Kabaivanska, the Metropolitan Opera's beautiful Bulgarian import.

Andre Turp, principal lyric tenor of the Royal Opera House Covent Garden, will sing the title role, and Ara Berberian, noted for his great, black voice, will join Gramm as the Grand Inquisitor in the celebrated bass duet in Act IV.

The Oenslager sets, designed for the deep stage of the new theater and exploiting the full possibilities of new materials, have been executed by Peter Wolf Associates of Dallas.

Terming Oenslager one of America's great stage designers.

ers, Robert L. B. Tobin, vice president of HemisFair in charge of cultural participation, declared:

"For 'Don Carlo' we simply told him we wanted the best -- and left it up to him."

The result are sets of unique three-dimensional impact with such authentic touches of the sixteenth century as huge reproductions of paintings in the style of El Greco and other Spanish masters.

The \$3 million theater seats 2,800 and all seats for the first performance are price at \$50.

Additional performances at standard prices (\$2.50 to \$10) are scheduled for the evenings of April 8 and 11.

The gala opening night -- which will feature a break for a champagne supper during the first intermission -- will launch a special "Symphony Week" program at the San Antonio fair.

APRIL 7 CONCERT

The San Antonio Symphony, directed by Dr. Alessandro, will present an April 7 concert featuring the premiere of a new piano concerto by John Corigliano Jr. It will be performed by Hilde Somer.

APRIL 13, PIANIST

Arthur Fiedler of the Boston Pops Orchestra will be guest conductor of the symphony April 13 with pianist James Dick as guest artist.
